Dear Speaker Pelosi and Minority Leader McCarthy:

The American Financial Services Association (AFSA)¹ writes to express its strong support for the Secure and Fair Enforcement (SAFE) Banking Act of 2021.

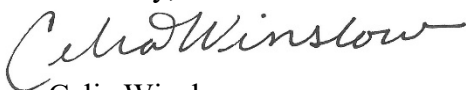

The SAFE Banking Act, sponsored by Representatives Ed Perlmutter (D-CO), Nydia Velázquez (D-NY), Steve Stivers (R-OH) and Warren Davidson (R-OH), had strong bipartisan support in the 116th Congress with 206 cosponsors, and passed the House 321-103. This legislation includes an important provision ending Operation Choke Point. Specifically, it prohibits a federal banking agency from ordering a bank to terminate a banking relationship with a legal business unless there is a valid reason that is not based solely on reputational risk.

The ostensible intent of Choke Point program was to prevent criminal fraud. However, in actuality, federal officials pressured banks to close accounts of businesses operating within state and federal law without legal recourse or due process solely because the officials were ideologically opposed to the businesses' existence. Under Operation Choke Point, businesses that were operating legally suddenly found banks terminating their accounts, in some cases accounts that the business had had for years, without explanation. While the program was targeted at gun dealers and payday lenders, other businesses, such as installment lenders, were also affected. No legal business should be targeted solely based on the political bias of a particular administration.

Even after Operation Choke Point officially ended, its effects remained. Financial services companies that are licensed and regulated still had their accounts closed with very little explanation. Legitimate bank customers, like traditional installment lenders, which have provided safe and affordable small-dollar credit to consumers in their communities for over a century, deserve fair access and fair treatment by federal banking agencies.

Limiting the availability of lawful goods and services to consumers in an attempt to punish politically disfavored businesses harms consumers and sets a bad precedent. Government initiatives must be carried out on solid legal ground, not political bias. We urge members of the House of Representatives to support the SAFE Banking Act.
