LOGO REQUIREMENTS

Because company logos may be displayed on conference websites, in printed programs, and in various other promotional materials, it is important that high-resolution graphics files be uploaded in your electronic exhibit contract application.

Logos and wordmarks come in various shapes and sizes. For best results, your submitted logo should be a standard rectangle or square. Logos that are particularly wide or tall, or feature small print, may not appear as intended.

In all cases, keep the white space around the logo to a minimum of 1/8". Excessive white space can cause your ad to appear smaller in some programs. We prefer not to crop white space around a logo file but reserve the right to do so if necessary.

Files Accepted for Print:

Files Accepted for Websites:

300 DPI. Image files less than 1000KB and greater than 50K for best results.
